INVENTA-FISCHER AG will build a polyester plant in Thailand

The Engineering Company INVENTA-FISCHER AG (formerly EMS-INVENTA AG) - a member of the EMS-group which is active in the field of performance polymers, fine chemicals and engineering - will build a polyester plant in Thailand.

The plant will be designed for a capacity of 14'000 tons/year of polyester chips and 6'300 tons/year of filament (FDY). INVENTA-FISCHER AG will perform the design of the plant, deliver the specific machines and equipment, train the key-personnel of the client and delegate the specialists for the supervision of the erection work and the commissioning of the installation. The local supplies and services will be performed by ELECTROWATT-EKONO (Thailand) Ltd.

The plant will be located near Rayong. Start of production is scheduled for mid 2002. The total value of this contract is estimated at CHF 28.0 mio.
